

**Carkeek Park Field Study Data Sheet**      Group member names \_\_\_\_\_

Group member names \_\_\_\_\_

Date and Time:

Weather conditions:

Distance to water line (in meters): \_\_\_\_\_

Distance between quadrats (above distance divided by 12): \_\_\_\_\_

Be sure to record the substrate for each quadrat in the first row of the tables.

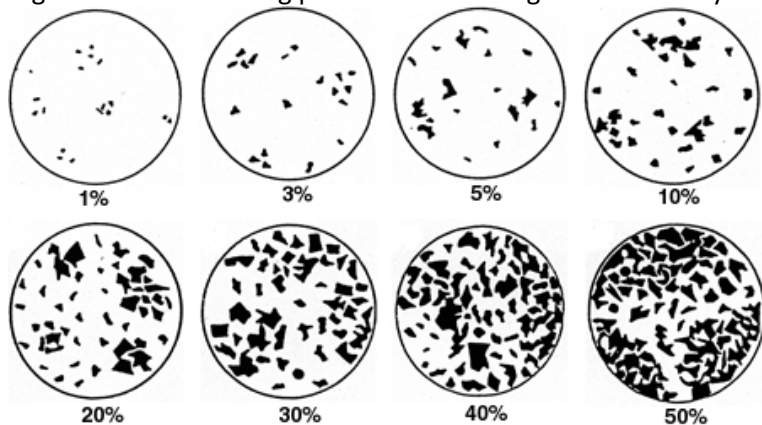

[illegible]

# Carkeek Park Field Study Data Sheet

Group member names \_\_\_\_\_

Species name  Substrate type? (sand/rock/etc). →	Percent cover of organisms per quadrat					
	Quadrat 7	Quadrat 8	Quadrat 9	Quadrat 10	Quadrat 11	Quadrat 12

A guide for determining percent cover of organisms within your quadrat:

based on *Mearns Rock Field Guide* and Terry and Chilingar, 1955
