

ST2 Syllabus Scavenger Hunt

Names: _____

As we embark on a new year of Science, it's likely that some classroom policies and expectations will feel familiar and similar to what Dr. Russell did in ST1, and others will be new.

For this assignment, you will work with your assigned partner and use the information on the class syllabus and linked documents (found on your class page on Canvas) to answer the following questions and learn more about this year's science class. One member should be recording your answers in this document.

When you have answered all questions, submit the assignment to Canvas (only one partner needs to submit it), and we'll share responses and see how you did! 😊

1. What kind of science are we studying in ST2 this year?
2. Where can you find all of the files for this class?
3. What percentage of your grade is based on Responsible Action?
4. What should you do if you don't know how to do the homework?
5. Give an example of Responsible Action.
6. When is homework due?
7. What's the best way to communicate with Ms. Dodd (outside of class time)?
8. When must extensions be requested?
9. Give an example of an action that is NOT responsible.
10. What is Ms. Dodd's email address?
11. What is the name of one of the MAs from this trimester?
12. What should you do if you are absent/miss class (be detailed)?
13. What is the name of the first unit we will study in the spring trimester?
14. What is a question you want to ask Ms. Dodd? 😊
